

TECNA[®] BALANCERS LINE

TECNA S.p.A. produces and distributes a **complete range of balancers** having a capacity **from 0,2 up to 180 kg** and an available wire stroke up to 3 meters. As a manufacturer, TECNA realizes special as well as customised versions upon demand.

The TECNA balancer is an essential device to **eliminate the operator's labour**, to **increase productivity** by cutting down idle times and to improve the work quality. Furthermore, the use of the TECNA balancers reduces hoses and cables wear and avoid eventual damages to both people and tools.

The ergonomic structure of the TECNA balancer has been designed for **facilitating each use operation**, ranging from movement easiness to body robustness, from simple use to lifting power.

The application of the TECNA balancer is absolutely versatile: it may be used for bench or assembly line works and it may be suitably applied to small tools, industrial suspended welders and multiple screw drivers, etc.

The balancers are produced in conformity with the DIN 15112 directive.

The a new balancers line **ATEX certified** expands the range suitable to be installed in potentially explosive areas composed by flammable gases or combustible dusts.

Balancing your job

APPLICATIONS

1. Power tools
2. Air tools
3. High pressure floor polisher / cleaning equipment
4. Stapling machines
5. Guns / airbrushes for spray paint
6. Screw guns
7. Cutting machines
8. Nailing machines
9. Tying tools for cables
10. Soldering irons
11. Marker machines
12. Riveters
13. Machines for cellars
14. Bottling machines
15. Sheet welding machines
16. Push-button panels for cranes
17. Extraction systems
18. Suction hoses
19. Exhaust gas / combustion hoses
20. Adjustable arms
21. Robot supply cables
22. X-ray tools
23. Robot for dimensional control
24. Tools for slaughterhouses
25. Tools for working the rocks
26. Conveyor belts and rails
27. Power supply busbars
28. Tools for working wood
29. Submersible pumps and stirrers
30. Industrial sewing machines
31. Tools for packing
32. Welding guns
33. Welding jigs
34. Callipers for holes and micrometers
35. Hoses for gas pumps
36. Filling machines for the food industry
37. Suspension of equipment for leather processing
38. Electrical and pneumatic staplers
