

TECNA[®]

BALANCERS

NEW

TECNA'S COMMITMENT WITH BALANCERS IS CONTINUOUS AND EVERGROWING

Die cast Aluminium housing with anti-oxidating treatment against chemical aggression from water and soaps

NSF-H1 certified food grade grease

Rust-proof stainless materials

Food grade rope guide, shock absorber and wire cap

Full stainless steel wire rope

FOOD INDUSTRY BALANCERS

FOOD INDUSTRY BALANCERS

	1600÷2500 mm
	0,2÷14 kg

	2000÷3000 mm
	4÷180 kg

TECNA balancers are known worldwide for their strong build, durability, performance and ease of use. Ergonomics, production efficiency, easy handling and lifting of tools and equipment. Less stress on your back and joints for a better quality of life and safety. Robustness in all conditions, in all environments.

ZERO GRAVITY balancers with completely stainless parts, both outside and inside; food-grade grease NSF-H1 certified; aluminum housing with high-resistance Rilsan treatment against oxidation and chemical

aggression of soaps and detergents, with low surface rugosity to improve cleaning and sanitizing efficiency against dirt and bacteria.

RETRACTOR balancers feature stainless steel on all external parts; food grade grease NSF-H1 certified; aluminum housing with hard anodization treatment, resistant to oxidation and chemical aggression.

The new **FOOD INDUSTRY LINE** brings the excellence of balancers in extreme working environments: a product that can work in the presence of steam, moisture and humidity, resistant to chemical aggression of cleaning and sanitizing products.

Applications range from the food and beverage industry to the dairy industry, from meat processing and slaughtering to the sausage industry, from sweets to bread, from seeds and nuts to fruits and vegetables, from washing and sanitizing to chemical or saline environments.

You need it, we solve it.
